From 11 December 2018, we began accepting submissions on our 2019 taxi non-cash payment surcharge review via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

1. Is the current 5 per cent non-cash payment surcharge for taxis too low, too high or at the right level?

Too high.

2. What major differences exist between payment processing in the taxi industry and other industries?

1 or 2 maximum, but plz requested as u see now more than double taxis on road so plz allowed taxis with Uber, so taxi driver also allowed Uber as well.

3. What are your views on our methodology and approach for assessing the maximum surcharge?

Same as response in no.2 above.

4. Should there be a single maximum non-cash payment surcharge or a separate maximum for each type of payment method accepted in taxis?

1 per cent is okay; 5 per cent is a rip off.

5. What other matters should we consider in setting the maximum non-cash payment surcharge for taxis?

Same as response in no.2 above.
