Essential Services Commission
VEU division – Activity 21A non omni-directionality transition period
Level 37, 2 Lonsdale Street
Melbourne VIC 3000

Email: veu@esc.vic.gov.au

Dear ESC

Activity 21A non omni-directional lamp transition period for 21A

We **support** the Essential Services Commission's proposed extension of the transition period for the installation of non-omni-directional lamps under activity 21A for an additional month.

We have manufactured the largest quantity of non-omni-directional lamps for activity 21A.

However, the proposed one-month extension will allow sufficient time for our remaining non-omni-directional lamps to be installed in Activity 21A.

If you have any further questions about this submission, please contact me at the details below.

Kind regards,

Dr Chris Mardon
