From 17 November 2020, we began accepting submissions on our Minimum feed-in tariff review 2021-22 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

Your comments on this draft decision:

The low rate of 7.1 cents is unfair and unreasonable to consumers who have invested substantially in solar panel installation. Such low rate is really bad for the environment as it discourages people investing in solar panel.
