Consultation on Changes to Register of Products for Refrigerated Cabinet Products

To Whom It May Concern,

Firstly, we would like to thank the ESC for listening to the impact these changes would have had on our business. We really appreciate the solution that has been proposed.

However, with challenges in the supply chain such as ships taking longer, shortage of workers on the docks, Covid issues, deliveries taking longer and so many more world and weather issues out of our control, the 6 week window will be too short\*.

Please let me know if you need any further information at all.

Kind Regards,

Kerrie Glazner
