

Minimum feed-in tariff review 2022-23

Submission received through Engage Victoria

Date submitted: 17 December 2021

Submission written by: Anonymous 8

From 2 December 2021, we began accepting submissions on our Minimum feed-in tariff review 2022-23 via Engage Victoria (www.engage.vic.gov.au). On this website, people were given the opportunity to send us a response to a set of questions we provided.

Forecasting wholesale prices

Why is the feed in tariff for solar being reduced every year? You state you are trying or make it fairer for the consumers but we seem to get raw end of the deal as prices continue to go up. People with solar are trying to offset their bills and at the same time ensure Victoria approaches carbon zero and stop relying on coal plants to supply our electricity. You shouts be helping the Victorian people not helping businesses gain more from people.
