

**ELECTRICITY INDUSTRY ACT 2000
VARIATION FOR AN ELECTRICITY GENERATION LICENCE**

**Sustainable Energy Infrastructure Pty Ltd
(ACN 625 686 651)**

RECORD OF DECISION

3 September 2021

SUMMARY

Pursuant to the provisions of section 29(1)(b) of the Electricity Industry Act 2000 (Vic) (Industry Act) the Essential Services Commission (the commission) has varied the licence to generate electricity issued to Sustainable Energy Infrastructure Pty Ltd (ACN 625 686 651). The variation includes removing one of two licenced generation facilities and minor updates of a consequential and administrative nature.

BACKGROUND

On 14 May 2020, the commission granted Sustainable Energy Infrastructure Pty Ltd an electricity generation licence to generate electricity for supply or sale at two generation facilities.

On 21 December 2020, Sustainable Energy Infrastructure Pty Ltd requested to vary the licence to remove one of the two generation facilities. This request for variation was made on the basis that Sustainable Energy Infrastructure Pty Ltd was no longer undertaking generation at the facility. Further consequential changes to the licence were also proposed as a result of that change.

CONSIDERATION OF THE VARIATION REQUEST

Section 29(1)(b) of the Industry Act provides that the commission and a licensee may vary a licence by agreement. Variation of a licence requires the commission to have regard to its objectives under section 10 of the Industry Act and section 8 of the Essential Services Commission Act 2001.

DECISION

The commission has decided, pursuant to 29(1)(b) of the Industry Act, to vary by agreement the licence to generate electricity issued to Sustainable Energy Infrastructure Pty Ltd. The variation includes removing one of two licensed generation facilities and minor updates of a consequential and administrative nature.
